More Link

Expands Favorite section to reveal more selections – Overlays on Page Content – "Close" link replaces "More"

---

① Tracking lists of content pages that have been identifies as important or likely to be frequently used to allow for quick navigation to specific pages. In order to save space, eliminate the need for text space by identifying the type of Page by using small icons.

- **Recent Pages**: Track the most recent Pages
- **Favorites/Marked Pages**: Through Profile Settings users can set a certain number of pages to be favorites
- **Frequent Pages**: Most viewed Pages over a set period of time

② ALTERNATE MENU GROUPING TO REFLECT MORE OF A TASK BASED APPROACH AS SPECIFIC TO THIS SYSTEM. NEEDED TO MAKE ROOM FOR THE RECENT/FAVORITE LISTS

Vendors List

① Tracked links are listed in a left navigation type section, facetted by content type and marked by method that decided why the link is designated. This is a static panel and can extend to the bottom of the page.

② Instead of explicitly labeling a header for the designation type. Use Icon to conserve the horizontal space.

Vendors List

① Variation on the left side navigation. Using the right side in discrete boxes. Less obtrusive with more of an advertisement metaphor.
